SHELVES & ACCESSORIES

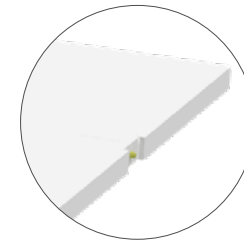

LED SHELF

Acrylic shelf with integrated LED lighting. Standard size is 900 mm wide, with custom sizes available upon request. Available also with lockable frame holders.

LED LIGHTING

Each shelf is equipped with pins that serve as electrical conductors. Once installed on the construction, which contains embedded electricity, the LED lighting on the shelf activates automatically.

LOGO HOLDER

Our standard displays come with acrylic white logo holders (168x100 mm), ensuring easy installation on the construction. Logos are provided by your side.

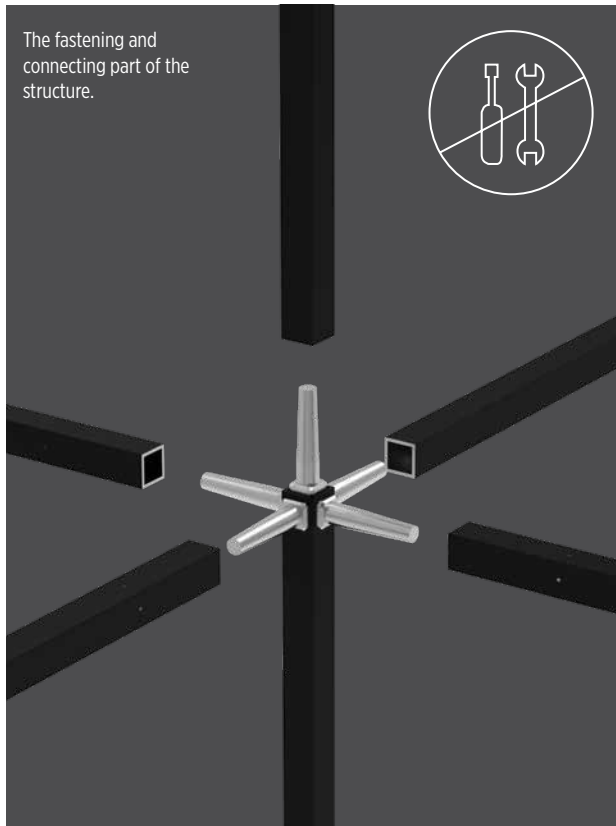

STK DISPLAYS

Displays with advertising element in oak decor. Element is lit.
Optional bottom drawers.

STK SHELVES BESPOKE

Displays tailored to meet your needs!

Beside our STK1 and STK2 standard STK displays we offer bespoke STK displays tailored to meet your needs.

CONSTRUCTION

Display construction consists of aluminum rods that through interlocking (patented) create structures of various sizes and shapes with ease – all without the use of additional tools.

CORDLESS LED-LIGHTING

Construction also contains integrated LED lighting – cordless – without visible cables.

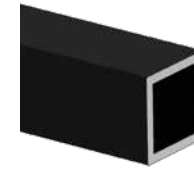

PANELS & SHELVES

Acrylic plates are cut to fit into predefined structure, as back panel or side/top plates. Acrylic LED shelves can come in different decors.

Contact us for a fully custom solution.

CONSTRUCTION

15 mm thick aluminium rods available in standard aluminium, black & white. Other decors on request.

PANEL

Acrylic - white matte
Other decors on request.

LED SHELF

Acrylic LED shelf.
Other decors on request.
